FADE IN:

SCENE NAME

This documentary is all about an ASTU student life and specifically focus on how an ASTU students spend holidays in the campus with all the challenges they're facing during this pandemic. We'll break it down every steps students faces to celebrate a holiday. For the time being and the coincidence we seize the opportunity that we get.so we'll only show you an orthodox tewahdo Angel Gebriel annual niges holiday celebration.

Like every ASTU students my alarm wakes me up at 6 o'clock morning but with me there is an additional factor that wakes brain but not my body which is the birds and pigeons sound because the live next to my dorm and I get up and look for a key and go to straight wash my face in the meantime saying hi to friends after I finish washing my face I go back to back to my dorm and got clothes change and check mirrors before i go out to café and after that I go to café with friends and dorm mates on the way to café saying hi to friends and asking if there's a class or not. And here comes the breakfast that everybody is eager to eat hehe I was joking it's not much but it can be eaten. After breakfast we go straight to taxi where it lead us to our final destination which is the church, on holidays like this adamas road are very busy and hard to catch up with friends so we tried to not split as long as we can and we succeeded and managed to get a good spot that has a good shed of trees to cover ourselves for some time but we needed the better sound spot and we looked in every angle we could possibly cover and listen the word of GOD. After finishing the ceremony we go out early from the church before it gets crowded.
